Who is this man?

He was talking with a childhood friend one day ...:

“You know, they are fooling us, there is no God... I’ll lend you a book ... it will show ... the world and all living things are quite different from what you imagine, and all this talk about God is sheer nonsense.”

... Questioned about the book,
He replied:

“Darwin. You must read it.”

A Harvard professor says ...

As were many persons from Alabama, I was a born again Christian. When I was 15, I entered the Southern Baptist Church with great fervor and interest in the fundamentalist religion. I left at 17 when I got to the University of Alabama and heard about evolutionary theory.

But in your hearts set apart Christ as Lord. Always be prepared to give an answer to everyone who asks you to give the reason for the hope that you have. But do this with gentleness and respect.

Dinosaur from Millions Years Ago ?

CALIFORNIA'S NESSIE
Pondering the possibility that pre-historic creatures survive in the Pacific
 BY WILLIAM C. ROBERTS

For hundreds of years, sailors have reported seeing huge dragon-like creatures that have surfaced near—and sometimes attacked—unwary ships and crews plying the world's seas. From the far Arctic Ocean to the deep, land locked Loch Ness, the large snake-like beasts that swim with their heads held high above the water blowing clouds of spray from their mouths terrified sailors who called them "sea serpents." Do they really exist or are they fragments of the imagination of uneducated seafarers who spend too much time near the rum cask? The ocean is the world's last great frontier and many areas of this vast body of water remain unexplored to this day. It is the age of the dinosaurs and occasionally are seen by humans.

Off the coast of Central California lies a mysterious underwater trench that extends many miles into the Pacific. Known as the Monterey Submarine Canyon, it is one of the deepest and least studied canyons in the sea.

For more than 100 years, sailors and fishermen in the vicinity have reported sightings of unusual marine animals, huge fish of strange descriptions, mysterious forms swimming beneath the waves and freak water conditions and currents that spring up for no apparent reason. Parts of the submarine canyon have even been described as having bottomless pits.

Speleologists came from miles around to view the "sea monster" that washed up at Moore's Beach near Santa Cruz in 1935.

Others, without striking bottom. To add to the mysterious appearance

"My examination of the monster was quite thorough. . . . It had no teeth. Its head is large and its neck fully 20 feet long. The body is weak and the tail is only three feet in length from the end of the backbone . . . with a bill like it possesses, it must have lived on herbage and undoubtedly inhabited a swamp. I would call it a type of plesiosaurus."

Another witness, Judge W.R. Springer of Santa Cruz, felt the creature was from a prehistoric age. He added his observation: "evidence of two short feet or flippers, and probably swam with its head high above the water."

Dinosaur from Millions Years Ago?

The research, by Mary Schweitzer, a molecular paleontologist at North Carolina State University, explains how proteins — and possibly even DNA — can survive millennia. She and her colleagues raised this question in 2005, when they found the soft tissue preserved inside the leg of an adolescent *T. rex* unearthed in Montana.

This fragment of demineralized tissue lined the marrow cavity of a *T. rex* femur. The demineralized fragment in “A” was flexible and resilient. When stretched, as shown by the arrow, it returned to its original shape. “B” shows the same fragment after air-drying. The fibrous character of the fragment is shown in “C.”

EVOLUTION

Man's Place in Nature. — Although we know that man is separated mentally by a wide gap from all other animals, in the study of physiology we must ask where we are to place man. In our attempt to classify man, we see at once he must be placed with the vertebrate animals because of his possession of a vertebral column. Evidently, too, he is a mammal, because the young is nourished by milk secreted by the mother and because he has at least a partial covering of hair. Anatomically we must place man with the apelike mammals, because of numerous points of structural likeness. The group includes the monkeys, apes, and man we call

subjugation and domestication of animals began to take place. Man then began to cultivate the fields, and to have a fixed place of abode other than a cave. The beginnings of civilization were long ago, but even to-day the earth is not entirely civilized.

The Races of Man. — At the present time there exist upon the earth five races or varieties of man, each very different from the other in instincts, social customs, and, to an extent, in structure. These are the Ethiopian or negro type, originating in Africa; the Malay or brown race, from the islands of the Pacific; the American Indian; the Mongolian or yellow race, including the native of China, Japan, and the Eskimos; and finally, the highest type of all, the Caucasians, represented by the civilized white inhabitants of Europe and America.

A Unitarian organization in Missouri hosted an evolution camp for kids ..., during which the kids were taught how to defend evolutionary theory from critics, including Christians.”

“I am the universe,” one of the camp’s organizers, Jennifer Lara, recited to the kids:

“Like you, I started as a speck about 13 billion years ago. I was smaller than a piece of dust under your bed. I was bursting with wild and dazzling dreams of galaxies, stars and planets in radiant colors —bright yellow, molten red and piercing blue.”...

One in four, maybe six (Feb. 10, 2010)

DANNY SERNA | FEB 10, 2010

It turns out “one-in-four” is a bit high. The common adage — coined by a Yale alum in 1987 to describe the surprisingly high proportion of homosexuals she encountered during a campus reunion — is not too far off, according to a News poll, sent last week to 5,186 undergraduates, of which 1,770 students responded. ... **17.7 % of Yale men — about one in six** —... are attracted only to men, compared to **8.1 % of Yale women** ... are attracted only to women. ... **12.2 % of Yale women** ... were bisexual, roughly three times the rate of men who said they are attracted to both men and women.

Impact on Bible Interpretation: Old Earth

“I kind of read through the text and it seemed obvious to me that **it had to be a local flood, not a global flood**, and I was shocked to discover that there are all these Christians, and even Christian scholars that held to a global flood. And I wanted to figure out, you know, how did this happen? You know, how did people get off track like this? And maybe I’m speaking a little bit pridefully here, but you know, that’s how I was operating in my youth, …..

Romans 5:12. Therefore, just as sin entered the world through one man and death through sin, and in this way death came to all men, because all sinned

Death → Sin → One Man → World

V.S Death → Evolution → World

Death came through Adam's Sin!!

NOT by Millions of Years of Evolution!!

What the Bible says...

**I have no greater joy than to hear
that my children walk in truth.**

(내가 내 자녀들이 진리 안에서 행한다
함을 듣는 것보다 더 즐거움이 없도다)

3 John 1:4

JESUS LOVES YOU!
THE BIBLE SAYS SO.

THE BIBLE
ISN'T TRUE!

WHERE DID CAIN GET HIS WIFE?
WHERE DO THE DINOSAURS FIT IN THE BIBLE?
HOW DO YOU KNOW THERE IS A GOD?
WHERE DID ALL THE RACES COME FROM
IF GOD CREATED ADAM AND EVE?

Later at home

I DON'T
KNOW.

I TOLD YOU
THE BIBLE'S
NOT TRUE!

DAD AND MOM, CAN YOU ANSWER
THESE PROBLEMS WITH THE BIBLE?
WHERE DID CAIN GET HIS WIFE?
WHERE DO THE DINOSAURS FIT IN THE
BIBLE? HOW DO YOU KNOW THERE IS
A GOD? WHERE DID ALL THE RACES
COME FROM IF GOD CREATED
ADAM AND EVE?

WE DON'T
KNOW ...
